10.4	FEE FOR SIGNS ERECTED WITHOUT AUTHORISATION
10.4.1	The Department: Planning and Housing may impose a penalty fee of R106,00 per day for illegal signs erected on a property without the municipality's authorisation. This penalty will be against the subject property owner or alternatively, where applicable, against a responsible Estate Agency for any fixed estate agent signs other than mobile estate agent signs.
	Such fee shall be calculated from date of notice being issued until such date that the sign is rectified. The obligation is on the responsible property owner or Estate Agency to inform the municipality in writing when the illegal sign is removed. The penalty fee will be calculated for the full period between such notices.
	Should the responsible person fail to comply with the notice to remove the illegal signage within 21 days, the municipality reserves the right to have the illegal sign(s) removed by appointed contractor of which such cost for removal will be for the account of the responsible property owner of Estate Agent. Should any such fees not be paid, said fee may be charged to the municipal account of the subject property or Estate Agent.

2. TARIFF 2: GENERAL TARIFF: COMMERCIAL CONSUMERS

This tariff is for the supply of electricity to shops, office buildings, hotels, bed-and-breakfast concerns, public halls, clubs, industrial undertakings, churches, church halls, educational facilities and consumers that are not included in any other tariff group.

2.A.1 Small General Consumers (Tariff code : 1507, 1508, 1549, 1582, 1583) : Credit meter only. One bulk meter only for office and business parks. Pre-paid meters under very special conditions as determined by the Senior Manger : Electro-technical

Energy charge : 164,65 cents per kWh

The tariff circuit breakers for this group are restricted to a maximum of 60 ampére for single phase and 100 ampére for three phase connections with an erasable minimum consumption of 200 kWh @ 164,65 cents per kWh per month.

2.B Normal General Consumers (Tariff code : Single phase 1509, 1550 / Three phase 1511, 1512, 1551, 1561, 1591)

Basic charge : Single phase : R 94,58 per month

: Three phase : R169,23 per month

Demand charge : R 38,65 per ampére per month for a single-phase

connection

R 78,70 per ampére per month for a three-phase

connection

Energy charge : 76,67 cents per kWh.

Only standard circuit breakers up to a maximum of 60 ampére single- or three phase or 150 ampére three phase will be used for future connections with the understanding that;

(i) the installation of 70 ampére and 80 ampére single phase circuit breakers that apply to (a) below, may only be installed with the prior approval of the Director: Electrotechnical.

- (ii) electricity to old age homes, children's homes and places of protection may be connected with three-phase connections with a maximum of 250 ampére as in (b) below.
 - a) 10, 20, 30, 40, 50 and 60 ampére for single-phase connections;
 - b) 10, 20, 30, 40, 50, 60, 80, 100, 125 and 150 ampére for three-phase connections {150 ampére meter and installation: to the same specification as that of tariff 3.A (bulk meter and modem)}

3. TARIFF 3: BULK TARIFF GROUP

3.A <u>Low voltage consumers (Tariff code : kWh 1513, 1514, 1552, 1592 / kVA 1515, 1516, 1553, 1586)</u>

This tariff is for 400/230 volt connections, with an installed capacity of 500 kVA or less:

Basic charge : R1 103,64 per month

Demand charge (block) : R 213,92 with a minimum

demand of 20 kVA per month

Energy charge : 70,20 cents per kWh

3.B <u>Medium voltage consumers (Tariff code : kWh 1517, 1518, 1554 / kVA 1519, 1520, 1555)</u>

This tariff is for 11 000 volt connections with an installed capacity of more than 500 kVA, provided the consumer insures and maintains all equipment between the meter and the load:

Basic charge : R1 576,61 per month

Demand charge:

Existing consumers : R212,23 per kVA per month with a minimum

demand of 150 kVA per month.

New consumers:

Demand charge : R154,83 per kVA per month Access charge : R 61,53 per kVA per month

notified demand)

The access charge is based on the highest of either the notified maximum demand or the highest maximum demand reading during the previous 12 months,

Energy charge : 62,66 cents per kWh

(A 10% discount is applicable to consumers who pay connection costs from a 66kV sub-station, subject to the conditions included in the relevant contract.)

- (i) No maximum demand charge will take place during Eskom's off Peak periods with regard to current tariffs 3.A & 3.B.
- (ii) Unless maximum notified demand is contractually agreed on or stated, the access charges will automatically be adjusted.

3.C **GEORGE TIME OF USE:**

Typical customers: Customers:

Who are on a maximum demand tariff;

Who can shift their load to defined time

periods;

Who have installed AMR (automatic

meter reading) equipment.

Connection fee: As currently

Basic charge: R1 727,10 month per point of delivery, whether

electricity is consumed or not.

Availability fees: A monthly access charge, based on the highest

of either the notified maximum demand or the highest maximum demand reading during the

previous 12 months, shall be applied.

Time periods and

Public Holidays: As per Eskom tariffs.

Demand charge: Payable in peak or standard periods on

weekdays and Saturdays. The integrating period

is 30 minutes.

No demand charge is applicable during the

off-peak periods.

A 5% discount will be applicable to all consumers metered at 11 kV and supplied from an urban network.

An additional 5 % discount is applicable to all consumers that paid for an electrical connection directly from a 66/11 kV substation.

Reactive energy charge:

(TARIFF CODE:

REACT RAACT2)

15,14 cents per kVArh.

Supplied in excess of 30% (0,96 PF) of kWh recorded during peak and standard periods. The excess reactive energy is determined per 30-minutes integrating period and accumulated for

the month.

Conversion surcharge:

A conversion surcharge may be charged. A comprehensive tariff study is required before changing to the TOU tariff.

- Client is responsible for metering equipment costs (at least 3 months TOU data available before conversion)
- A Professional Engineer must be appointed by the client to do a tariff study to the satisfaction of the Director: Electrotechnical Services where the load factor is LESS than 40%.
- A change of tariff will apply for a minimum period of 12 months with three months mutual notice thereafter.
- Any tariff change to a non TOU tariff will only be allowed on the same month of the first conversion (or initial connection)

4. TARIFF 4 : SUPPLY TO HOUSING SCHEMES

Refer tariff 1.A.I to 1.C.4 on page 35 and 37.

5. TARIFF 5 : AGRICULTURAL CONSUMPTION (Tariff code : 1541, 1542, 1543, 1544, 1545)

This tariff is for the supply of electricity to farms for agricultural use from 11kV lines through transformers and is applicable to each such transformer:

Basic charge : R 179,16 per month for transformers from 10 kVA to

16 kVA

R 303,13 per month for transformers above 16 kVA, up

to 25 kVA

: R 606,27 per month for transformers above 25 kVA, up

to 50 kVA

R 675,32 per month for transformers above 50 kVA, up

to 100 kVA, tariff 2B and/or 3A is applicable for

supply above 100 kVA.

Energy charge: 128,93 cents per kWh

6. TARIFF 6 : STREET LIGHTING (Tariff code : 1530, 1531, 1559)

Lamp charge : R 85,90 per month Energy charge : 89,61 cents per kWh

7. TARIFF 7: NON MUNICIPAL STREETLIGHTS, SPORTS FIELDS AND FACILITIES (Tariff code: 1556, 1587)

Energy charge: 140,28 cents per kWh

8. TARIFF 8: MUNICIPAL DEPARTMENTS

Consumption by Municipal departments is charged at the appropriate tariff scales.

9. TARIFF 9 : TELEPHONE BOOTHS (DMA) (Tariff code : 1590)

Basic charge : R162,66 per booth

10. TARIFF 9: PRE-PAID METERS

◆ Free 70 kWh per month are awarded to households who qualify in terms of the Indigent policy.

Pre-paid meters: the above-mentioned free kWh are only applicable to the first purchase of every month.

10.A **FORMAL HOUSING**:

Tariff: Standard domestic tariffs will apply.

- (i) In respect of second dwellings on single residential properties, as well as labourers' cottages, the full instalment cost for pre-paid meters will be recovered from the client. Actual costs are payable as per quotation.
- (ii) In respect of dwellings not permanently occupied, the pre-paid meter option may be offered.

10.B CHANGE-OVER FROM CREDIT TO PRE-PAID METERS

- (i) In respect of a change-over from credit to pre-paid meters in cases where clients require the pre-paid meter to be installed anywhere other than directly next to the distribution board, the full additional cost will be recovered from the client and the credit meter will be left in place for purposes of control;
- (ii) all change-overs may only be done by contractors who are appointed by the Municipality;
- (iii) with regard to blocks of flats where flats are measured separately, the change-over tariffs are available per individual flat, with the understanding that the existing credit meter stays in place for control purposes.

10.B.1 LOW COST AND FORMAL HOUSING AND FLATS

10.B.1.1 A tariff of R1 193,86 is payable for a change-over from single phase credit to pre-paid meters and is restricted to 60 ampére.

Tariff: Standard domestic tariffs will apply.

10.B.1.2 A tariff of R3 441,23 is payable for a change-over from three phase credit to prepaid meters and is restricted to 60 ampére.

Tariff: Standard domestic tariffs will apply.

10.B.2 **BUSINESS CONNECTIONS**

- 10.B.2.1 A tariff of R1 193.86 is payable for the change-over from <u>single phase</u> credit to pre-paid meters and is restricted to 60 ampére as per conditions set out in 2.A.1.
- 10.B.2.2 A tariff of R3 441,23 is payable for <u>three phase</u> connections with regard to new as well as the change-over from credit to pre-paid meters and is restricted to 100 ampére as per conditions set out in 2.A.1.
 - (i) all change-overs may only be done by contractors who are appointed by the Municipality;
 - (ii) in the case of business and/or commercial units where pre-paid meters are installed, a bulk kWh test meter must be installed.

11. BASIC MINIMUM CHARGE (AVAILABILITY CHARGE) APPLICABLE TO SITES THAT ARE NOT CONNECTED TO, OR DISCONNECTED FROM, THE ELECTRICITY SUPPLY NETWORK: (Tariff code: 2201, 2202, 2203, 2204, 2209)

The following basic minimum charges are payable annually before the 30th day of September or may be paid in equal monthly installments if rates for the relevant erf are also paid in monthly installments:

11.A. Erven larger than 5 000m² (Tarriff code: 2203)

R1 002,59 plus R10,42 per 100m² or part thereof, calculated on that portion of the property that exceeds 5 000m² to a maximum of R2 044,59 for erven not connected to the Council's electricity supply network, but which could reasonably be connected to the network. {100 Units X 100m²}

11.B **All other erven (Tariff code : 2201, 2209)**

R1 002,59 plus R10,42 per 100m² or part thereof, calculated on that portion of the property that exceeds 1 200m² to a maximum of R2 961,55 for each fixed property not connected to Council's electricity supply network, but which could reasonably be connected to the network. {188 Units X 100m²}

12. BASIC MINIMUM CHARGE FOR PROPERTIES CONNECTED TO THE ELECTRICITY SUPPLY

The following basic charges, in addition to those in paragraph 3, are payable annually before the 30th day of September, or may be paid in equal monthly installments where the rates for the relevant erf are also paid in monthly installments:

12.A Erven larger than 5 000m² (Tariff code: 2204)

R10,23 per 100m² or part thereof calculated on that portion of the property that exceeds 5 000m² with a maximum of R1 023,00. {100 Units X 100m²}.

12.B All other erven, excluding schools (Tariff code: 2202)

R10,23 per 100m² or part thereof calculated on that portion of the property that exceeds 2 500m² to a maximum of R1 790,25 (175 units X 100m²).

13. **SUNDRY CHARGES**

13.A Connection fees

Only pre-paid meters or split pre-paid meters are available for domestic connections.

13.A.1 **Domestic connections**

The following connection costs are based on the actual costs plus 10%.

(i) Single-phase: R4 899,00 *

(ii) Three-phase: Actual cost + 10% + capital contribution*

(see ("GENERAL" Page 7 for definition)

- * With the understanding that the connection cable can only be laid/placed within 1 (one) meter of the inside of the erf's boundaries and that the connection from this "point" to the dwelling will be the responsibility of the developer/owner.
- (iii) In cases where overhead service lines are replaced by underground cables, there is a discount equivalent to the cost of 30 metres of service cable, consumer meter and two circuit-breakers at the price based on clause 13.A.1(i) and (ii) above.
- (iv) An additional R454,00 should be paid if a split pre-paid meter is installed.

13.A.2 Rural area:

(i) <u>Medium Voltage Connections - Pole Mounted Transformers</u>

Extension fees : As determined by the Director: Electrotechnical

Services, based on R212,00 per kVA.

PLUS

Actual cost + 10%

The following standard sizes are applicable:

- 16 kVA Single-phase
- 25 kVA Single- and Three-phase
- 50 kVA Three-phase only applicable for Bona Fide agricultural
- 100 kVA Three-phase use
- Equal or larger than 50kVA (domestic or commercial): Standard Capital Contributions as per 13.A.4

(ii) Langvlei Dunes Project 26 erven

- Standard 60A single phase connection:
 Extention fee R30 916,00 **PLUS** actual cost + 10%
- Standard 60A three phase connection: Extention fee R49 277,00 PLUS actual cost + 10%

13.A.3 Commercial and light industrial(up to and including 80A)

- (i) The connection costs will be the actual costs plus 10% calculated from the point of connection to the main line.
- (ii) No pro rata transformer costs are payable for connections up to and including 80A three-phase.
- (iii) No costs are payable for increasing the size of transformers.

13.A.4 Industry and Large commercial more than 80A

A capital contribution per equivalent erf as determined by the Director: Electrotechnical Services must be paid with regard to the main network **PLUS** actual cost + 10% on actual cost.

- (i) In addition to standard pro rata transformer, costs are payable where connections are made to Council's existing transformers. Pro rata transformer costs are not payable in the following instances:
 - (a) Where consumers supply their own substations which are connected directly to the high voltage network.
 - (b) Where consumers pay for the enlargement of an existing transformer to allow connection to it.
 - (c) Where applicable, an additional discount applies to the demand upon which the pro rata costs are based (size of required connection), which is equivalent in kVA to the existing connection of the relevant property
- (ii) Pro rata costs are calculated in accordance with Standard Diversity curves based on the following:

(a) **Substations**

The replacement costs of the transformer, low voltage panel and high voltage switch-gear that serves the transformer, provided that only the costs of the equipment will be payable.

(b) <u>Mini-substations</u>

The replacement cost of the complete mini-substation including the ring switch-gear, provided that only the cost of the equipment will be payable.

In group housing schemes the after diversity maximum demand figure shall be used to establish the connection size.

13.A.5 **Pro rata refund of substation costs**

(Approved: Council meeting on 1990-11-07 Item 6.8)

In cases where a complete substation has been erected at the expense of a consumer and Council subsequently uses the substation to connect other consumers, or to improve the electrical network in the area, a pro rata portion of the substation charges will be refundable to the original consumer.

The pro rata refund shall be calculated on the same basis as the initial pro rata payment in respect of paragraph 13.A.4.(ii) (a) & (b).

13.A.6 Large connections which connect directly from a 66 KV substation

A capital contribution as determined by the Director: Electrotechnical Services **PLUS** actual cost + 10% on actual cost.

13.A.7 Town development, group housing, flats and resorts

- (i) Capital contribution is charged per residential unit or equivalent erf as determined at rezoning and sub-divisions.
- (ii) The standard pro rata transformer monies are payable in addition, as prescribed for industries and wholesalers, paragraph 13.A.4 or commercial and light industries, paragraph 13.A.3, whichever is applicable.

MISCELLANEOUS CHARGES WITH EFFECT FROM 1 JULY 2015

A. CAPITAL CONTRIBUTIONS

1. CAPITAL CONTRIBUTIONS:

- a) Capital contributions are payable in addition to any service charges, charges for consumption, availability charges and connection fees.
- (b) The capital contributions provided for in these tariffs may be imposed in terms of Section 75A of the Local Government: Municipal Systems Act 32 of 2000 or may be imposed by any person or authority when granting any authorization, exemption or application contemplated in Section 42 of the Land Use Planning Ordinance, 1985 (Western Cape Ordinance 15 of 1985): Provided that these tariffs shall not limit or restrict the conditions that may be imposed by such person or authority and such person or authority shall be free to impose such other capital contributions as it may deem necessary or expedient under the circumstances.
- (c) All capital contributions are adjusted annually and will be charged and be payable at the revised tariffs which are applicable at the time of transfer of the erf or property concerned or the approval of building plans in respect of such erf or property, whichever takes place first: Provided that should the number of erven, residential units, equivalent erven or other basis on which capital contributions may previously have been based, increase, additional capital contributions shall be payable calculated in accordance with the then existing tariffs when such changes take place or building plans are approved, as the case may be, whichever shall be the earlier.
- (d) Should the floor area of an existing building be increased or should approved building plans be changed or should an existing or authorised use of any building be changed or should new buildings be erected, or the electricity supply be increased, as the case may be, the owner shall be liable for payment of capital contributions in respect of such extensions, additions or changes, as the case may be, in accordance with the tariffs applicable from time to time, which capital contributions shall become payable upon approval of the building plans in respect of such extensions or additions or the occurrence of such change, as the case may be.
- (e) Should any capital contributions have been paid upon approval of building plans or at any time before transfer of a property and any changes as contemplated in paragraphs (c) and (d) subsequently occur, the provisions of paragraphs (c) and (d) shall apply mutatis mutandis in determining the additional capital contributions payable.

- (f) The capital contributions for roads shall be calculated in accordance with the applicable model applied by George Municipality's Director: Civil Engineering from time to time.
- (g) To the extent that stormwater drainage is not provided for in the applicable model referred to in paragraph (f) above in respect of roads or if, in the opinion of George Municipality's Director: Civil Engineering Services, it would be more appropriate, the capital contribution in respect of stormwater drainage shall be equal to the direct costs of the stormwater drainage infrastructure provided or to be provided.
- (h) Capital contributions shall be payable by the registered owner of the property concerned at the time when the contribution is due and payable, which shall be upon transfer of the property concerned or approval of building plans, whichever shall be applicable, unless any conditions of approval or services agreement provide otherwise or if the Municipality's Director: Civil Engineering upon application in writing on good cause shown, determine otherwise: Provided that if payment of capital contributions are to take place at any time other than upon transfer or approval of building plans, such payment shall be secured by a guarantee to the satisfaction of the Municipality's Director: Civil Engineering.
- (i) The capital contributions provided for in these tariffs shall be payable in terms of section 75A of the Local Government: Municipal Systems Act 32 of 2000 unless the payment of such amount is replaced by a condition imposed in terms of Section 42 of the Land Use Planning Ordinance, 1985 (Western Cape Ordinance 15 of 1985).
 - (j) The following transitional arrangements shall apply in respect of these tariffs:
 - (i) Should any building plans have been submitted for approval in terms of the National Building Regulations and Building Standards Act, 1977 (Act no 103 of 1977) on or before 30th June 2015 and such approval is granted after 30th June 2015, the capital contributions in force on 30th June 2015 shall apply.
 - (ii) Should application for a certificate (generally referred to as a rates clearance certificate) as contemplated in Section 118 of the Local Government: Municipal Systems Act, 2000 (Act no 32 of 2000) have been made on or before 30th June 2015 and such certificate is issued after 30th June 2015, the capital contributions in force on 30th June 2015 shall apply in respect of any tariff payable before transfer of the property concerned.
 - (iii) Should the approval of any building plans in terms of the National Building Regulations and Building Standards Act, 1977 (Act no 103 of 1977), lapse after 30th June 2015 without being extended, the capital contributions in

force at the time of any subsequent approval of building plans for the property concerned shall apply.

- (k) Capital contributions may be refunded, less an administration cost of 10% of the total amount to be refunded, and without interest, if an applicant who has already paid a capital contribution in writing notifies George Municipality that he chooses not to exercise the specific land-use approval or building plan approval in respect of which the capital contribution has been paid, whereupon such land use approval or building plan approval will also be cancelled. Provided that no such refunding shall be allowed in respect of any capital contributions paid by way of the construction of roads or other services infrastructure
- (I) No person may pay any capital contribution in advance so as to deliberately avoid becoming liable for any increases in the tariffs, for purposes of which payment more than 1 (one) month before the due date for payment as referred to in paragraphs (d) and (e) shall be deemed to constitute an unauthorized payment in advance)
- (m) Should any person be required in terms of any authorization or approval to build roads or to construct any other municipal services infrastructure instead of paying a capital contribution in cash, the provisions of these tariffs on capital contributions shall apply mutatis mutandis to such road-building or construction of infrastructure and the Municipality's Director: Civil Engineering shall be entitled to require of the owner concerned to secure execution of such road-building or construction of infrastructure by furnishing George Municipality with a guarantee to its satisfaction in the sum determined by the Municipality's Director: Civil Engineering

2.17 Hiring of Halls to Schools

Schools which have no halls, may use a hall for free on two occasions per year, subject to the same conditions applicable on other users.

3. Periods of letting

For purposes of determining the above-mentioned tariffs,

"Day" means the period from 9:00 till 17:00

"Evening" means the period from 17:00 till 24:00

4. Reduced Tariffs

4.1 CULTURAL, EDUCATIONAL, RELIGIOUS, WELFARE AND SERVICE ORGANISATIONS

4.1.1 A reduced tariff of 50% of the normal tariffs applies to cultural, educational, religious, welfare, service organisations and sport clubs. If an admission or attendance fee is charged, the normal tariff is payable.

This reduced tariff for the halls will not be applicable on Friday nights, Saturdays, Sundays and Public Holidays.

4.1.2 Weekends

A reduced tariff of 50% off the normal weekend tariff is allowed for the above-mentioned organisations, should they meet the following requirements:

- (a) The hall in question must be booked one month in advance and the rental paid within 48 hours thereafter;
- (b) Facilities must be left in a clean and neat condition;
- User is responsible for payment of any damage to building or property;
- 4.2 In cases where the hall is let for three or more subsequent days for the day as well as the evening and cleaning services are not required, half of the day tariff will not be charged.

4.3 Preparation or practice

In cases where a hall is hired during normal office hours for preparation or practice, and the lessee requires no preparation or cleaning services, or where no overtime tariff is payable to personnel, a reduced tariff of 25% off the normal day tariff will apply, but in such cases paragraph 4.1 above does not apply. For the purposes of this paragraph the following meanings apply:

"Preparation": To prepare a hall for a function on the same or following day for which it is hired;

"Practice": To practice or prepare for a function which will take place on a later date in the hall in question, or to teach or coach for a purpose which in the opinion of the Director: Corporate Services is of an educational nature.

H. PUBLIC TRANSPORT: TARIFFS WITH EFFECT FROM 1 JULY 2015

The George Municipality together with the Provincial Department Transport and Public Works is implementing a public transport service in George with the intention to provide affordable public transport while providing access to the majority of the George community. A 5km stage distance increment with a 15 km base distance will be used.

Method of calculation

The base tariff is a function of the Department of Labour: For area A urban Domestic Worker, working more than 27 hours per week, as per the formula

Tariff = ((% Minimum wage for commuting * Department of Labour Minimum Monthly Wage for urban domestic workers in Category A municipalities) * Shape Factor Stages) / 40 (commute trips per month)

Where the indices are defined as:

Parameter	Value	Units
Policy Percentage	17.6%	
Minimum Wage	R2,065.47	per month
Working day trips	40	per month
Base Distance	15	Km
Base Fare	R0.61	/km
Stage Length	5	km
Shape Factor	1.25	

Tariff structure:

A Basic Tariff for up to 15km trips, which include transfers within prescribed time limits, and a tariff incremented in 5km stages thereafter.

STAGE	DISTANCE	STAGE	DISTANCE
0	15	6	45
1	20	7	50
2	25	8	55
3	30	9	60
4	35	10	65
5	40		

Paper ticket tariff structure:

An interim paper ticket system has been introduced. It is the intention to introduce an Automated Fare Collection (AFC) system, utilising a smart card. The paper ticket fares, including an interim discount, are as follows:

Single trip paper tickets : R 8,50 per ticket 10 trip paper multi Journey ticket : R75,00 per ticket

(Valid for 30 days from first boarding)

The above paper ticket fares are provided at a discounted rate to the tariff structure during the GO GEORGE roll-out period and until the initial public transport system has been adequately established and an AFC system has been introduced.

Automated Fare collection (AFC) Tariff Structure

On introduction of an AFC system, public transport users will be able to purchase a reloadable smartcard for use on the Go George buses as an alternative to a paper ticket.

The tariff structure for the AFC system will be based on the following tariff structure:

Parameter	Value	Units
Policy Percentage	17.6%	
Minimum Wage	R2,065.47	per month
Working day trips	40	per month
Base Distance	15	Km
Base Fare	R0.61	/km
Stage Length	5	km
Shape Factor	1.25	

With the introduction of the smart card the following changes will apply:

- The smart card will be sold at a price of R20 from specific identified vendors
- A card refund will only be applicable to smart cards purchased and returned at the ACSA vendor
- No refund will be applicable to lost or damaged cards
- The cost of a single trip, based on the above tariff structure, will be R9,00
- Single trip Paper tickets will be sold at a premium of 10%, based on the above tariff structure and rounded to the nearest Rand.
- Various transit products will be offered, in line with the tariff structure, and will be published on introduction of the AFM system.
