
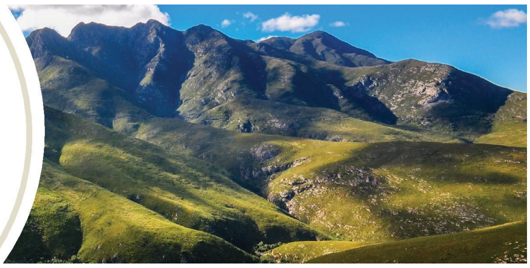
GEORGE
THE CITY FOR ALL REASONS



Edition 43 NOVEMBER 2020

The year 2020 has indeed turned out to be challenging for all of us. At the outset as a country we began the year already facing economic challenges. The Covid-19 virus emerged in numerous countries before reaching our shores during March 2020 resulting in the declaration of the pandemic and the various levels of lockdown that we have all experienced in George and South Africa. In the aftermath of the pandemic we have now entered the Economic Recovery phase where we need to rebuild our economy and recover the jobs that we have lost.

Executive Mayor Leon Van Wyk

All our citizens have experienced hardship during this year through the restriction of movement and activities resulting in many vulnerable residents experiencing hunger, the loss of jobs and dignity as well as increased levels of safety concerns. The George Municipality will continue to play a facilitating role to assist in the recovery of jobs lost, improving the safety, dignity and wellness of our residents.

We wish to thank all our employees and citizens for all their sacrifices and patience during this year as we have tackled new behavioural patterns in dealing with Covid-19.

The George Municipality welcomes all visitors to George over the summer holiday season and wish them excellent weather, safety (while on the roads and while swimming) and good times enjoyed with friends and family. Please remember to adhere to the Covid-19 regulations especially during the holiday season and to continue wearing masks, washing hands, applying social distancing and staying home when sick. We are all in this together as we are facing these challenges. Where possible, we should see how we can assist those less fortunate than ourselves.

Good wishes to all residents and visitors.

Die jaar 2020 het inderdaad vir ons almal uitdagend uitgedraai. Reeds aan die begin van die jaar het ons as land ekonomiese uitdagings in die gesig gestaar. Die Covid-19-virus het reeds in talle lande voorgekom, voordat dit in Maart 2020 ons oewer bereik het, wat aanleiding gegee het tot die verklaring van die pandemie en die verskillende vlakke van inperkings wat ons almal in George en Suid-Afrika ervaar het. In die nasleep van die pandemie het ons nou die ekonomiese herstelfase betree waar ons ons ekonomie moet herbou en die werk wat ons verloor het, moet herstel.

Al ons burgers het gedurende hierdie jaar swaarkry beleef deur die beperking van beweging en aktiwiteite wat tot gevolg het dat baie kwesbare inwoners honger ervaar, die verlies van werksgeleenthede en waardigheid, asook verhoogde vlakke van veiligheidsprobleme. Die George-munisipaliteit sal steeds 'n fasiliterende rol speel om te help met die herstel van verlore werksgeleenthede, wat die veiligheid, waardigheid en welstand van ons inwoners sal verbeter.

Ons wil al ons werknemers en burgers bedank vir al hul opofferings en geduld gedurende hierdie jaar, aangesien ons nuwe gedragspatrone aangepak het in die hantering van Covid-19.

Die George-munisipaliteit verwelkom alle besoekers aan George gedurende die somervakansieseisoen en wens hulle uitstekende weer, veiligheid (terwyl hulle op die paaie is en terwyl hulle swem) en goeie tye saam met vriende en familie toe.

Onthou om die Covid-19-voorskrifte veral tydens die vakansietydperk na te kom en aan te hou om maskers te dra, hande te was, sosiale afstand toe te pas en tuis te bly as u siek is. Ons is almal saam in die pandemie en staar die uitdagings in die gesig. Waar moontlik, moet ons sien hoe ons diegene wat minder bevoorreg is as ons self, kan help.

Goeie wense aan alle inwoners en besoekers.
